

Unify your network with **AnexGATE ACE**: All-in-One Smart Appliance.

Say goodbye to multiple devices, power issues, and network downtimes.

AnexGATE ACE is an all-in-one smart network appliance that replaces your router, PoE switch, and LAN switch in one compact device. It comes with built-in SIM connectivity, dual WAN ports, PoE LAN ports, USB support, and auto failover designed for reliable, always-on performance.

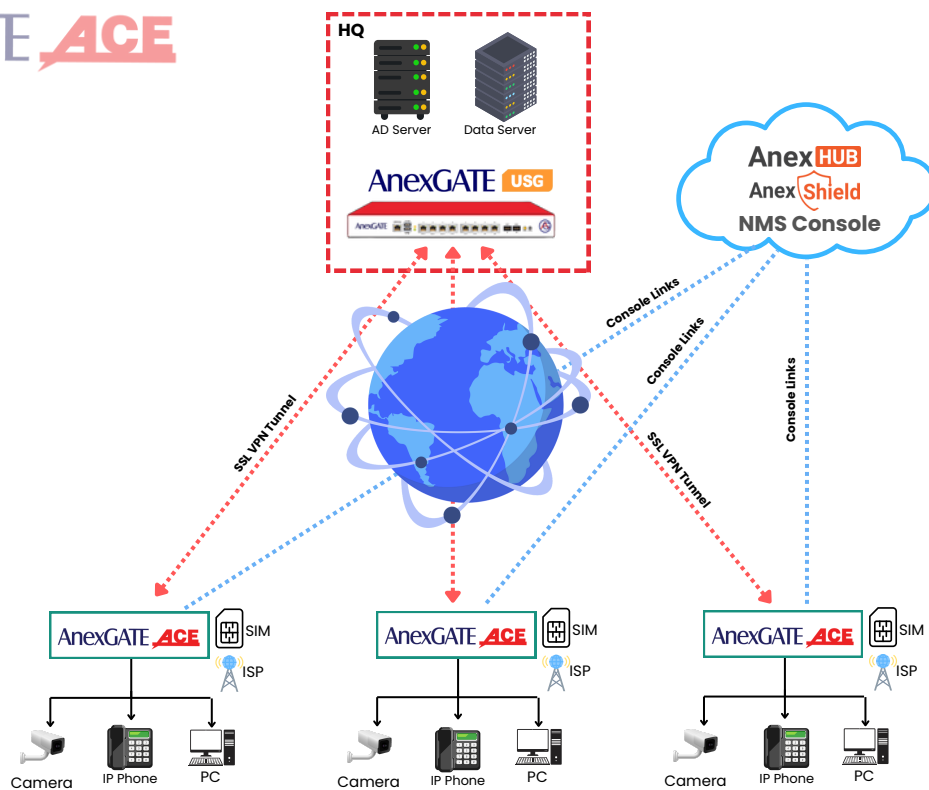

What **ACE** Delivers

- ✓ Compact Design: Clean installations, less maintenance.
- ✓ Dual WAN + SIM Slot – Auto failover keeps you connected, always
- ✓ USB Ports – For storage, logging, or 4G dongle
- ✓ Built-in Core Switch Eliminate external switch boxes.
- ✓ 8 PoE LAN Ports – Power CCTVs, access points, phones

What **You** Eliminate

- 3 devices → 1 smart appliance
- 3 power sources → 1 plug
- Downtime → Seamless failover
- Vendor chaos → One support team
- Messy setups → Clean, efficient installs

Why Choose AnexGATE **ACE**

- One box – Router, PoE switch, and LAN switch in one unit
- Auto failover – No downtime when a WAN link fails
- Zero-touch setup – Fast deployment with no local IT needed
- Compact and reliable – Reduces wiring, power points, and failure risks
- Cost-effective – Lower hardware, power, and maintenance costs
- Made for scale – Manage hundreds of sites from one dashboard

Anex**HUB** + Anex**Shield** : Built-In Intelligence and Security

Anex**HUB**: Remote Control, Zero Touch

- ✓ Deploy and configure devices remotely
- ✓ Monitor uptime, performance, and health from one place
- ✓ Push updates without on-site visits
- ✓ Manage multiple sites with ease

Anex**Shield**: Security That Travels with You

- ✓ Filters harmful and unsafe websites
- ✓ Blocks malware, phishing, and unwanted content
- ✓ Enforces SafeSearch and compliance policies
- ✓ Works across broadband, SIM, or WAN – always-on protection

Together, **AnexHUB + AnexShield** turn every **ACE** deployment into a secure, remotely managed network – perfect for multi-location rollouts.
